

Accredited Labs™

**Calibration Services &  
Measurement Equipment**

## ACCREDITED LABS:

# Your Premier Partner in Calibration

Accredited Labs is a network of top-tier calibration companies united by one mission: to keep our customers audit-ready and in control of their equipment calibrations.

When accuracy is critical, our accredited calibration labs deliver superior customer service while reducing risk, improving reliability, and boosting operational performance. Backed by generations of calibration expertise, we combine local service with the power of a nationwide network.

### Electrical Metrology

- AC Voltage
- AC Current
- Electrical Simulation
- Resistance
- DC Voltage
- DC Current
- Capacitance
- Frequency
- Oscilloscope Cal
- Distortion Measurement
- Inductance

### Mechanical Metrology

- Mass & Weighing
- Hardness Testing
- Pressure & Vacuum
- Force Measurement
- Torque Metrology
- Rotational Speed
- Hydraulic Actuator

### Dimensional Metrology

- Hand Tools & Indicators
- Fixed Gages
- Coordinate & Optical
- Length Standards
- Surface Metrology
- Angle & Level
- Displacement, Deformation
- Coating Thickness
- Surveying Equipment

### Flow Metrology

- Liquid Flow
- Air/Gas Flow

### Chemical & Analytics

- Conductivity
- pH Measurement
- Spectrophotometry
- Other Chemical

### Volumetric Calibration

- Volumetric Devices

### Specialized & Material Testing

- Civil/Construction Testing
- Welding Devices

### Acoustic & Vibration

- Accelerometer Calibration

### Thermodynamic Metrology

- Temperature Metrology
- Humidity Metrology

### Time & Frequency

- Time Measurement
- Frequency Measurement

### Optical Metrology

- Light Measurement

**35+**

**6+**

Mobile Calibration  
Laboratories

## Local Excellence, National Strength.

### Certifications

Industry-leading accreditations and quality certifications that demonstrate technical competence and reliability

### Quality

Comprehensive quality management systems ensuring consistent, accurate calibration results across all locations

### Local Proximity

National network with local presence providing personalized service and rapid response capabilities

### Strength of Relationships

Deep, long-standing customer relationships built on trust, reliability, and exceptional service delivery

### Breadth of Calibration Services

Comprehensive range of calibration disciplines and complementary services under one roof

### Speed of Turnaround Time

Industry-leading <7-day turnaround time target with real-time tracking and proactive communication
