PIVOT Digital Scale Data Collection System

Digital Scale Data Collection Has Just Taken a Turn

The PIVOT data collection system provides nimble, scalable communication between PA Scale digital scales and networked devices such as phones, tablets, printers, and barcode scanners. PIVOT quickly and easily integrates with new or existing PA Scale digital scales to capture and communicate parts counts, weights, and other critical inventory and production data points to any networked device or database for storing, sharing, and reporting.

PIVOT DIGITAL SCALE DATA COLLECTION SYSTEM

Features:

- Ideal for parts counting and inventory control
- Available for new and legacy PA Scale digital scales
- Factory or field installed
- Supports legacy products
- Free PIVOT app for Android phones and tablets
- Downloadable from Google Play (PIVOT Wireless Technology)
- Interfaces with a variety of devices and services, including local ERP and POS databases, phones, tablets, barcode scanners, and internet-based tools
- Bluetooth and WiFi enabled
- Completely customizable and supports a wide range of applications
- Ready-built for counting scales but can be easily and affordably customized for other user-defined applications
- Continuously outputs weights and piece counts to remote display or mobile device
- Auto-programs piece weights for counting using barcode or QR scan (local or cloud)
- Performs sample counts and saves piece weights to database
- Continuous failure monitoring
- Automatic updates and bug fixes
- Add existing databases via CSV file
- Retrofit compatible with PA Scale 7500 and 7600 Series Bench Scales
- Two Year Limited Warranty
- Made in USA

Warranty:

The parts and components of these Pennsylvania Scale Company products are warranted for four years from the date of retail delivery against defects in materials and workmanship, subject to the terms and conditions of our standard warranty.
